

Press Release

BAR BOMAN

New lobby bar at Hotel Continental

February 5th 2018

Stortingsgaten 24/26, OSLO

Hotel Continental is excited to announce that on February 5th 2018 we opened the newest edition to the property – BAR BOMAN.

Since 1947, the hotel lobby bar (formerly known as Dagligstuen) has been a lively and popular place for hotels guests as well as locals. The complete refurbishment of the reception, lobby area and bar, is a part of a larger 8 years' renovation plan of all three buildings which forms Hotel Continental. After carefully and thoroughly studying international bars in cities like London and New York, our owner Elisabeth C. Brochmann embarked on this project with a new architect and designer team. The lobby bar and lounge, a long with the reception and lobby area, was completed in February 2018.

The name Boman originates from Caroline Boman who together with her husband, Christian Hansen, was first generation owners of Hotel Continental and Theatercaféén. BAR BOMAN plays an important part in Hotel Continental's rise into a new era.

We welcome you to a stylish lounge for our hotel guests and a vibrant bar scene for Oslo's residents. Enjoy our signature drinks and tasty bites!
